

Immunization Waiver

Camp McCall requires all campers to be immunized in compliance with school standards, including the date (month and year) of the last tetanus shot. In the event that parents choose not to immunize their child, they must sign a statement releasing the camp from any liability due to exposure to any communicable disease (including any consequences from the withholding of tetanus immunization should their child sustain a cut or puncture wound while on the campsite). The following statement should be signed and attached to the camper's registration form.

I, _____ (parent/guardian) have chosen not to immunize my child, _____. I release Camp McCall, and any medical personnel chosen by them, from any liability due to exposure to any communicable disease (including any consequences from the withholding of tetanus immunization should my child sustain a cut or puncture wound while on the campsite).

Signature of parent or guardian

Date

Parent/Guardian's name

Parent/Guardian's phone number

Please attach this form to your child's registration form or e-mail to Camp McCall at:
